

2162-2850 Mixed Bed Filter

Commercial Automatic

WATERWAYS

Quality ways with water

Est-1987

Product Description: Mixed bed filters are used for sediment removal over a wide range of flow rates. Due to a much larger surface area and the ability to be backwashed the dirt holding/handling capability of a mixed bed filter is far superior to cartridges. The beds can be made up of different filtering sands and filtration media.
